ABOUT

Frontend Developer skilled in HTML, CSS, JavaScript, React, GSAP, and WordPress, focused on responsive design and interactive UI development. Continuously improving technical skills and seeking opportunities to contribute to production-level frontend projects.

WORK EXPERIENCE

Intern Front-end Developer

MARCH 2025- NOV 2025

Kodewise Technologies LLP

- Worked on building and updating web pages using HTML, CSS, and JavaScript for existing and new features.
- Assisted in finding and fixing UI and functionality issues, learning how to debug real project code.
- Updated website content, pages, and posts while maintaining layout and responsiveness.
- Collaborated with senior developers and team members, followed instructions, and implemented feedback to improve code quality.
- Participated in team discussions and agile workflows, actively learning user-centered design and modern frontend development practices.

Employee Dashboard (Personal Project)

4 MONTHS

- Built a role-based dashboard with Admin, Super Admin, and Employer panels, gaining experience in UI structure and access-based rendering.
- Developed frontend interfaces for modules such as leave management and task assignment using HTML, CSS, and JavaScript.
- Implemented features like time tracking and task monitoring, focusing on usability and clear data presentation.
- Worked with PHP and MySQL to understand backend integration and data flow while primarily handling frontend logic and UI.
- Independently planned and executed the project, exploring the complete development workflow from database structure to deployment.
